

User Manual for the Guns Guru App

Introduction

Guns Guru is a comprehensive app designed to help users manage weapon licenses, track ammunition, record shooting logs, and maintain service history for weapons. The app is tailored for both Pakistani and international users and provides specific features based on the user's location.

Getting Started

1. Sign-In Process

- iOS Users: Sign in via Google or Apple.
- Other Users: Sign in via Google.

If a user does not provide mandatory information (such as Name, Phone Number, Email, and Date of Birth), they will be redirected to the User Profile screen to fill in these details.

2. User Type Determination

- Pakistani User: Identified by a phone number starting with the country code +92.
- International User: Identified by any phone number not starting with +92.
 - American and Canadian Users: Must specify their State, City, and Country due to the shared country code +1.

Once the form is completed, the user is redirected to the Home Page.

Home Page

The Home Page provides the following options:

1. Licenses (Visible to Pakistani users only)
2. Weapons (Visible to International users only)
3. Service Log Book
4. Shooter's Log Book
5. Consultancy Service

3. Licenses (Pakistani Users Only)

- Redirects to a screen showing all user licenses.
- Users can:
 - Add New License: Fill in details such as the issuing authority, license number, weapon type, etc.
 - View License Details: Display the weapon details linked to a specific license.
 - Add Weapon to License: Only one weapon can be associated with each license.
 - Add Ammunition Record: Manage ammo records for the added weapon.

4. Weapons (International Users Only)

- Add Weapons: Users can directly add new weapons.
- Weapon Details: Users can add ammo records for each weapon.

5. Service Log Book

- Service Record: Users can:
 - Enter weapon service details, including history, parts replaced, or changes made.
 - Specify whether the service was conducted by the user or by a third-party armorer.

6. Shooter's Log Book

- Users can record details about their shooting sessions:
 - Number of rounds fired.
 - Weapon used.
 - Caliber, temperature, humidity, terrain, wind speed, and more.

7. Consultancy Service

- Provides details of consultancy services offered by Guns Guru.
- Open to all users but mainly caters to Pakistani users in Sindh.
- Services include:
 - License Renewal
 - License Issuance
 - License Conversion
 - Ammunition Limit Enhancement
 - Lost License/Weapon Services

Additional Features

Profile Management

- Users can edit their profile information by clicking on the "Edit Profile" option.

Navigation Drawer

- Users can access additional options, such as:
 - Logout: Logout from the app.
 - Delete Account: Permanently delete their account.

Miscellaneous

- The app provides detailed management for weapon types, calibers, makes, models, and more.

Important Notes

- Pakistani Users: The app's consultancy services are primarily for users located in Sindh but remain accessible for users operating the app from different countries.
- International Users: The app allows for a flexible entry of weapon and ammunition records, tailored to international laws and regulations.

Contact Support

For any issues or support, users can contact Guns Guru customer service via the "Contact Us" option available in the navigation drawer.

This user manual provides a comprehensive guide to understanding and using the Guns Guru app effectively, ensuring a seamless experience for both Pakistani and international users.
